RSVP – 4<sup>th</sup> March, 2019  
Olga on 0423-147-636, or via our  
Facebook Event or Eventbrite.

This evening is especially relevant for girls and young women with a passion for aviation.

They will have the opportunity to hear from, and speak with, women who have careers in different areas of the aviation industry and learn what the future of aviation holds for them.

Our presenters are leaders in their fields, and this is a wonderful opportunity for girls and young women to understand how they too can become involved in different areas of aviation.

The evening will also show girls how they can potentially earn an Australian Air League Aviation Diploma and begin their journey into the world of aviation...today.

Join us during International Women's Week on Wednesday 6<sup>th</sup> March for an informative evening, light refreshments and a **Pink Paper Plane Competition**.
